SUMMARY

- Having overall 10 years of working experience.
- High learning ability, responsibility, punctuality. Team player.

TECHNICALL SKILLS

Programming Languages:

- JavaScript

Frameworks:

- AngularJS
- Angular

Tools:

- Webpack
- Git

Cloud Platforms:

- AWS

EDUCATION

Computer networks and systems

Kharkov National Aerospace University "KhAI", Kharkov, Ukraine

ACHIEVEMENTS

- TEAM TechTalk #8: What Do I Know About Compilers?
- Speaker at Professional JavaScript Course at Top Gun Lab

CERTIFICATIONS

- AWS Certified Developer – Associate
  Certificate AWS-ADEV-10549
- AWS Certified Solutions Architect – Associate
  Certificate AWS-ASA-36390
- AWS Certified Solutions Architect – Professional
  Validation Number G3Q7GSS21J4Q1Z57

RECOMMENDATION LETTERS

Emil Bergdahl CEO, Filmyr https://korzh.io/static/filmyrRecommendationLetter.pdf

Pet projects

Static Page Constructor

Static Page Constructor is a serverless CMS that generates static sites. It operates similar to jekyll, except you don't need to change source code, instead you create/edit widgets https://github.com/orgs/static-page-constructor/

tich.io

Mentorship made easy https://tich.io

create-cloud-api

Create AWS Powered APIs https://github.com/pkorzh/create-cloud-api

Work experience

Uniform Advantage

Team International, 2017

Tools and Technologies: Angular, Webpack

E-Commerce

tich.io

tichio LLC, 2016

Tools and Technologies: Angular, Django, AWS Lambda, S3, API Gateway, DynamoDB

Mentorship made easy

Filmyr

AbsoluteVizion, 2016

Tools and Technologies: React, Webpack, Angular, Django, Celery, RabbitMQ, Chef

Get what you saw on screen. The places, music, and products from film and tv at your fingertips

VaultMR

Team International, 2016

Tools and Technologies: JS, Gulp, Webpack, Angular

It was an outcome of a simple observation: Why has health care technology impeded progress in care delivery rather than "truly" improving clinician satisfaction? This mismatch led us to strive for a "true" Electronic Health Platform (EHP) rather than putting bandages on broken systems.

We teamed with clinical leaders, and several technologists to create a powerful, web-based, easy to use, interoperable platform through which health care facilities, administrators and clinicians engage, personalize and delight patient care

Telenor

Team International, 2014-2015

Tools and Technologies: JS, Gulp, Grunt, Webpack, Angular

Completely new telco business support stack (BSS), including billing system, CRM, DWH, ERP and a completely new and revolutionary web front-end covering sales, self-service, retail and customer service
